CALL FOR PAPERS

„Studii și articole de istorie” no. LXXXV/2018

The yearbook “Studii și articole de istorie” (“History Studies and Articles”) is the main publication of the Romanian Society of Historical Sciences. It appears continuously since 1955, with 84 volumes being published up to 2017. The journal aims both history teachers active at different education levels and a broad group of scholars engaged in the production and dissemination of historical knowledge.

Traditionally, “Studii și articole de istorie” has a main focus in the fields of didactics and history of education, but it publishes also studies on other topics. Most of the studies are published in Romanian, with an English abstract and keywords. However, the journal welcomes also papers written in other languages, and will decide on a case-by-case basis whether to publish them in English (with a large Romanian abstract) or in Romanian translation (with an English abstract).

All papers submitted for publication are subject to the **double blind peer-review** system.

The journal is currently indexed in the *Central and Eastern European Online Library* (CEEOL - www.ceeol.com).

The LXXXV (2018) issue of “Studii și articole de istorie” will include articles grouped under the following headings:

➤ **Centenary 1918**

We welcome both synthetical overviews, and empirical studies focusing on one or several of the following aspects:

- Hardships (war, shortages, diseases)
- Attempts to find individual and/or collective salvation
- From the principle of national self-determination to the demise of empires and the formation of nation-states
- The Great Union of 1918 – historical agents, aspirations and realities
- Towards a more just society (land-ownership, electoral rights, gender equality, minority rights)
- The local community as scene of great historical processes
- Legacies of war (social traumas, economic imbalances, ideological aberrations, totalitarian evolutions)
- History and memory (historiography, recollections, cultural transfigurations)

➤ **History of education**

➤ **Didactics and educational management in teaching and learning history. Analyzes and opinions**

➤ **Miscellanea**

➤ **Book reviews**

Deadlines:
